

## Meeting the Needs

People who have contacted **Epilepsy Support Network of Orange County (ESNOC)** can remember how suddenly, they didn't feel so alone, or confused about where to go, who to call, or what to do next.

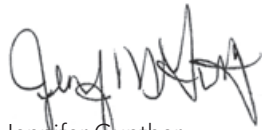

Now after two years, we are continuing to help connect, guide, and educate men, women, children, and teens whose focus is becoming seizure free. We share this goal with you, and it is through our compassion and dedication to you, and through the financial gifts from the community that we are able to provide needed services free of charge.

ESNOC goes beyond personalized, educational support groups for adults, parents and teens -- our meetings bring together a community of shared goals. Hope is provided to our members as we share information on the latest treatment options and epilepsy related life issues. Teens are helped to navigate an already socially-challenging time within a fun social group. We are here to circumvent the challenges teens and children in our Friday Friends Club face by addressing them in a safe and purposeful environment.

**We ask for your financial support, so that we may continue to offer programs and services, reach out to more people and with current, accurate, and helpful information -- provide a better tomorrow for those in need.**

As we move toward 2012 we see hope for accurate diagnosis, success with treatments and therapies on the horizon, but until we can all be seizure-free, we must continue working together, sharing information, advocating for each other, and building our community.

Sincerely,

Jennifer Gunther  
Executive Director

Janna L. Moore, MPA  
Director of Programs

Kaylyn visits Bailey shortly after his successful brain surgery at CHOC. Kaylyn is seizure free on the ketogenic diet.

In June, Gregory Johnson had successful brain surgery to stop his seizures.

The Rye Sisters, both have social success as Sydney attended Homecoming and Cecily joins the Dance club.

**Thank you! Our work is only possible with your support.**

### What matters most to me is supporting...

- Parent, Teen, and/or Adult support groups:
  - Connecting with others
  - Learning from expert speakers
- Community education: Building a Healthy Brain  
Epilepsy 101 and Seizure Recognition & First Aid
- Referrals to epilepsy specialists
- Advocacy for all 32,000 people in OC with epilepsy
- ESNOC Fundraising Events: Epilepsy Walk, etc.
